

Matai Street East Cycleway

This 400m section of the Uni-Cycle route, including an upgrade to the Fendalton/Harper/Deans Avenues intersection, will provide a safe cycle connection and manage vehicle flows as they approach the Uni-Cycle Deans Avenue crossing. The Uni-Cycle route is a first priority in the Council's Major Cycleway programme.

The full route extends from Teachers' College in the west to the CBD via Canterbury University, Riccarton Bush, Canterbury Boys' High School, Canterbury Girls' High School, and Hagley Park.

Benefits: Current users will experience improved cycle safety, significantly increasing the appeal of cycle journeys to and from the university, schools and into the CBD. It is anticipated that this section of the route will attract approximately 2,300 users.

Total cost estimate: **\$1.6 million**

Urban Cycleways Fund share
\$0.5 million

Local share \$0.55 million

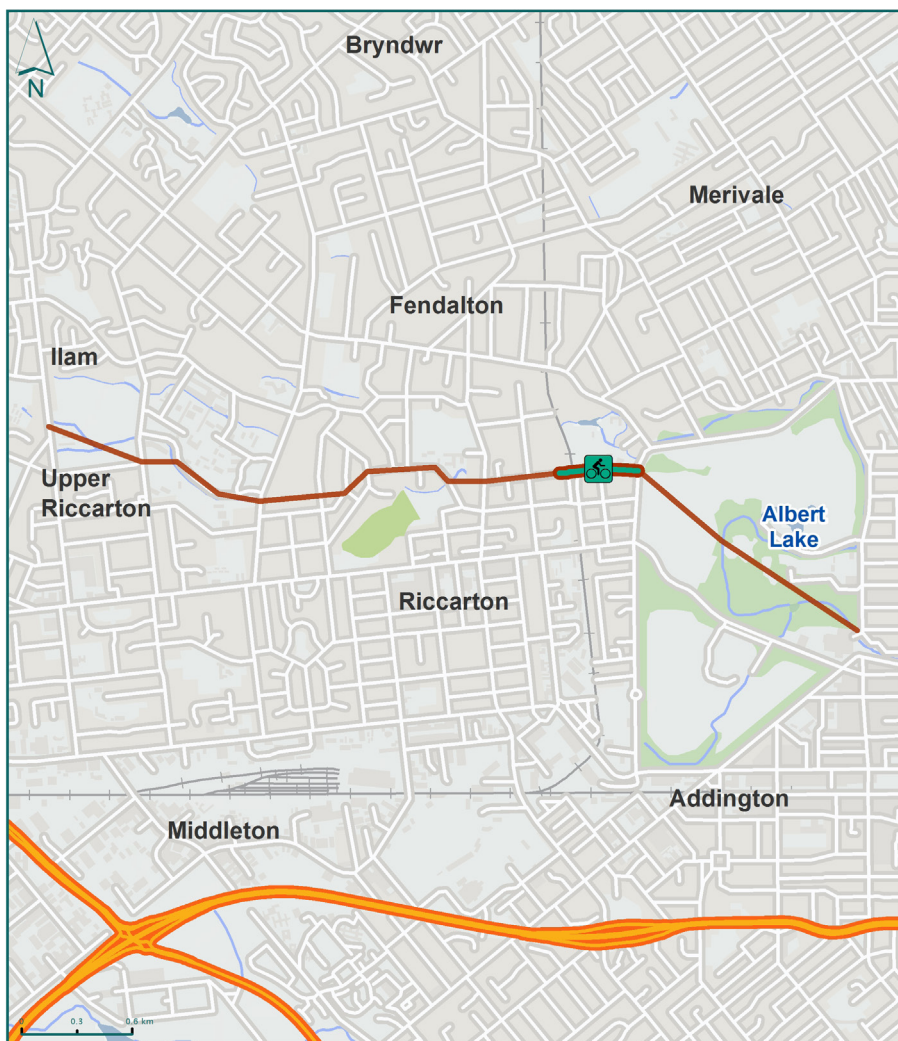

NLTF \$0.55 million

Target start date:

March 2015

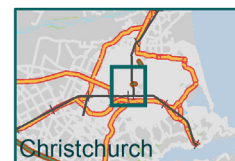

Target completion date:

August 2015
